GARANTIE

BVCert. 6037554

CAPTAIN is a new luminaire, born out of an eco-design policy, that offers innovative functions for lighting in hallways and circulation areas. Its elegant design and environmental characteristics make it more than a traditional bulkhead fitting — your perfect partner for managing your lighting installations in an efficient, environmentally-friendly way.

Manufactured from recycled and recyclable plastics and factory-repairable, the Captain luminaire is reusable in an overall maintenance circuit and forms part of a circular economy policy aimed at extending useful life. It is fitted with a high-performance, repairable LED system, with up to 2750 lm output and very low consumption of 130 lm/W, for an L80B10 life-expectancy of 72,000 hr.

THE CONNECTED ERA'S FIRST LED LUMINAIRE FOR COMMUNAL AREAS

And because everyone is concerned for the environment, its lighting module can be dismantled and repaired, without needing to replace the luminaire as a whole. This extends its useful life and allows technical evolution.

Its LED module, its detector, and its communication system are designed, developed, and manufactured in France and carry the *Origine France Garantie* label — the only quality mark that truly guarantees local manufacturing and that our suppliers and subcontractors too are in France.

Its base in recycled polycarbonate is in line with our circular economy policy.
Its reinforced construction, impact resistant to IK10 and its invisible secure closure make this a very durable luminaire.

Design by PM Design.

FEATURES:

- Low-consumption architectural luminaire
- Mount, base, bezel made from recycled polycarbonate
- High-performance polycarbonate diffuser
- Captive, non-visible stainless steel vandal-resistant fixings
- Standby consumption: Captain consumes less than 0.5 W in standby
- Lumen maintenance: L80B10 / over 72,000 hours
- RAL 9003 ○
- RAL 7035 ○
- RAL 9005 ●

OPTIONS AVAILABLE ON REQUEST:

- LED 3000 K
- Stainless steel crosspoint screws
